Additional Information

Driving Licence: B, A2

Marital Status:
Single

Date of Birth:
July 1997

Languages

Turkish (Native)
English (Fluent)
Spanish (A2)
German (A1)

Programming Languages

C, C++, C#, Java
Python, Dart

Courses Taken

Object Oriented
Programming
Learning From Data
Artificial Intelligence
Computer Vision
Secure Programming

Hobbies

Cycling, travelling
Trekking, camping

History, architecture
Analog photography

Education

2023–2025	**Technical University of Munich** in Informatics	M.Sc.
2015–2021	**Istanbul Technical University** in Computer Engineering	B.Sc.
2018–2020	**Anadolu University** in Securities and Capital Markets	Associate
2011–2015	**Figen Sakallioglu** Anadolu Lisesi	High School

Internships & Work Experience

Apr 2022 - Present — **Software Engineer** at **Huawei**
Developing, testing and documenting cross-platform packages on NuGet and pub.dev for HMSCore Project.
nuget.org/profiles/HMSCore
pub.dev/publishers/developer.huawei.com

Dec 2019 - Mar 2022 — **Software Developer** at **GMC Teknoloji**
Developing cross-platform mobile applications via Flutter and Xamarin C# programming languages

Aug 2019 - Sep 2019 — **Software Development Intern** at **Siemens**
Developed .Net application as a tool to make task management easier on TFS with C# programming language

Apr 2019 - Aug 2019 — **Software Development Intern** at **Poi Labs**
Android application development with Kotlin programming language and R&D in slotting optimization with Python programming language
poilabs.com/en/home

Projects

Sep 2020 - Jun 2021 — **Implementation of Undeniable Logging Protocol** — *Graduation Project*
This project is aimed to implement Undeniable Logging Protocol under supervision of Asst. Pr. Dr. Mehmet Tahir Sandıkkaya. It is implemented in Java Programming Language. Most used methodologies are socket programming and cryptography.
github.com/yemlihaoner/ITUGradProject-ULP

Jul 2021 - Sep 2021 — **Kulucka App** — *GMC Teknoloji*
This crossplatform mobile application project is implemented in Flutter. For backend services, Firebase Functions are implemented.

Feb 2021 - Sep 2021 — **Futgolf Türkiye** — *GMC Teknoloji*
This crossplatform mobile application project is implemented in Flutter. For backend services, Firebase Functions are implemented.

apps.apple.com/tr/app/türkiye-futgolf/id1556878719

Dec 2020 - Feb 2021 — **TestEt** — *GMC Teknoloji*
This crossplatform mobile application project is implemented in Flutter. For backend services, Firebase Functions are implemented.

Jul 2020 - Feb 2021 — **ParkYerimApp** — *GMC Teknoloji*
This crossplatform mobile application project is implemented in Flutter. For backend services, Firebase Functions are implemented.
apps.apple.com/tr/app/parkyerim-business/id1542012648

Dec 2019 - Mar 2020 — **AppyHour** — *GMC Teknoloji*
This crossplatform mobile application project is implemented in Xamarin, C#. For backend services, Azure functions are implemented.

Sep 2019 - Dec 2019	**RentChain**	ITU - Database Course

This project is aimed to develop a bicycle share project that is programmed with Python Flask and PostreSQL.

Sep 2019 - Dec 2019	**Face2Face**	ITU - Software Engineering Course

This project is aimed to develop a face comparison project that is programmed with Python Flask. I was responsible from UI-UX design and frontend of the webpage.

Aug 2019 - Sep 2019	**TFS Task Generator Improvements**	Siemens Intern

This project is aimed to upgrade TFS Task Generator application with new requirements. TFS Task Generator makes easier for employees to create tasks easier on TFS. It is implemented with WinForms, C# language as an desktop application.

May 2019	**Kickstarter**	Poi Labs Intern

This project aims learned basic concepts of android application development with Kotlin language that list the projects on Kickstarter with the detailed information.

Volunteer Experience & Memberships

2016 - 2023	**Bilim Kahramanları Derneği**

Instructor & Referee in Merak Makinesi, First Lego League and World Robot Olympiad

2015 - 2021	**ITU Cycling Club**

Board member in IT solutions

2017 - 2021	**ITU Free Software Club**

Board member in operational solutions
